## **DETAILED ACTION**

## Allowable Subject Matter

1. Claims 1-7, 9-20, 22-33, and 35 are allowed.

The following is a statement of reason for the indication of allowance: As the applicant stated in the remarks of the amendment filed on 4/17/2007.

Applicant's independent claims 1 and 12: The present in invention is directed to a method for scheduling data transmissions in a wireless communication system between a base station and a plurality of mobile terminals, the independent claim identifies the patentably distinct feature "wherein said scheduling metric is a function of Ri Qi/Ai where Q is the average size of a queue for a user i in a Medium Access Control (MAC) layer in said network, Ai is an average MAC layer throughput for said user i in said network, and Ri is a desired transmission rate for said user i in said network".

Applicant's independent claims 1 and 12 comprise a particular combination of elements, which is neither taught nor-suggested by prior art.

Applicant's independent claim 25: The present in invention is directed to a method for scheduling data transmissions in a wireless communication system between a base station and a plurality of mobile terminals, the independent claim identifies the patentably distinct feature "wherein said scheduling metric is a function of Ri Qi/Ai2 where Q is the average size of a queue for a user i in a Medium Access Control (MAC) layer in said network, Ai is an average MAC layer throughput for said user i in said network, and Ri is a desired transmission rate for said user i in said network".

Application/Control Number: 10/631,990

Applicant's independent claims 1 and 12 comprise a particular combination of elements,

which is neither taught nor-suggested by prior art.

Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submission should be clearly labeled "Comments on

Statement of Reasons for Allowance."
